# 1 unit 4 contacts <br> Multicontacts, Space - Saving type Auxiliary Switch 

## FEATURES

Multicontacts, Space - Saving (Length)

1 unit has 4 contacts, which is twice more than existing models. Switch length can be substantially downsized.

Length comparison

GQ type

Existing model (BM-AUS type)

Max. 15 units, 60 contacts
3 to 15 unit assembly is available for multicontact demand. In case of 15 unit, the number of contacts are 60.

## High anti－flammability， oil resistance

To ensure high anti－flammability and oil resistance，PBT plastic is used for the body units．

## Wide variation of contact arrangement

Wide variation of contact arrangement is available by combination of more than 50 cams． A custom－made cam also available．

GQ type PBT plastic（UL94－V0）

Existing model（BM－AUS type） PC plastic（UL94－HB）

## High reliability by grease－less

For the moving rod of the unit，a grease－less has been realized by adapting high slippery meterial． It＇s enhance high reliability over long－term use．

Rated insulation voltage 600V
Rated insulation voltage is enhanced to 600 V from 250 V of existing models．

## SPECIFICATIONS（RATINGS，PERFORMANCE）

Standard：IEC60947－1，IEC60947－5－1

|  | Specification | GQ |
| :---: | :---: | :---: |
| Rating | Rated insulation voltage（Ui） | 600 V |
|  | Lighthing impulse（Uimp） | $\pm 6 \mathrm{kV}(1.2 / 50 \mu \mathrm{~s})$ |
|  | Rated current－carrying capacity（Ith） | 20A（silver contact） |
|  | Max．wire size | $5.5 \mathrm{~mm}^{2}$ |
|  | Screw size | $\mathrm{M} 4 \times 9$ |
| Performance | Withstand voltage | 2，500V AC／ 1 min ． |
|  | Contact resistance | $50 \mathrm{~m} \Omega$ or less（default） |
|  | Mechanical life | 50,000 times（switching frequency：1，200 times／ h ，angular speed： $2 \pi \mathrm{rad} / \mathrm{s}$ ） |
|  | Electrical life | 50,000 times（AC－15，switching frequency： 360 times／ h ，angular speed： $2 \pi \mathrm{rad} / \mathrm{s}$ ） 20,000 times（AC－13，switching frequency： 360 times／ h ，angular speed： $2 \pi \mathrm{rad} / \mathrm{s}$ ） |
|  | Shock resistance | $500 \mathrm{~m} / \mathrm{s}^{2}$ |
|  | Vibration resistance | Frequency： 100 Hz Amplitude： 0.05 mm Time： 1 hour each 3 axial directions |
| Normal service condition | Operating temperature | -20 to $60^{\circ} \mathrm{C}$ |
|  | Relative humidity | 45 to 85\％ |
|  | Altitude | 2，000 m or less |

AUXILIARY SWITCH
GQ TYPE

## HOW TO ORDER

$$
\frac{\text { GQ-AUS }}{(1)} / \frac{2 S}{(2)} \frac{10}{(3)}-\frac{10}{4}-\frac{\text { S40U00 }}{(5)} \frac{S T}{A} \frac{090}{B}-\frac{\square}{C} \frac{\text { 20F20A }}{D}
$$

| No. | Item | Description | Note |
| :---: | :---: | :---: | :---: |
| (1) | Basic code | GQ-AUS type auxiliary switch |  |
| (2) | Fix bolt | 2: M6 bolt 4 pcs (front and back) length: 10 mm |  |
|  |  | $6: \mathrm{M6}$ bolt 4 pcs (front and back) length: 15 mm |  |
| (3) | Shaft shape | S: Standard shaft ( $\square 8 \mathrm{~mm}$ ) | ※ "Shaft Shape" |
| (4) | No. of units | 3 to 15 units |  |
| (5) | Code and quantity of contact | $\mathrm{S} \square$ : Silver single contact + Contact quantity |  |
|  |  | $\mathrm{U} \square$ : Gold single contact + Contact quantity |  |
| A | Center position code | Ex.) ST : Operation at T position as center | ※ "Operating Position" |
| B | Operation angle | Ex.) 090:90 ${ }^{\circ}$ operation |  |
| C | Option specification code | No code : Contact ON angle $=15^{\circ}$ | ※ "Contact ON Angle" |
| D | Contact arrangement | Contact ON position | ※ "Contact Arrangement" |

## OPERATING POSITION

```
Ex.) ST 090
Center Oparation position angle code
```

Front view (Shaft sticking out side)

* Operating position is indicated by the shaft's point.

Ex.) Code : ST090 ( $90^{\circ}$ operation at T position as center.)
In case, center position is between " A " and " T ", the central position code shall be " $A T$ ".

## SHAFT SHAPE

## Code:S

 ( $\square 8 \mathrm{~mm}$ )

* We can design other length or head screw shaft different from standard shape.

## CONTACT ARRANGEMENT

```
Ex.) 2 F 2 A
#
* Contact code means the position that shaft's point indicates when the contact is ON
*1 unit includes max. 4 contacts. (Contact quantity in 1 unit depends on contact arrangement.)
```

Ex.1) 2 (2F2A)

## OUTLINES

## TECHNICAL DATA

## Contact ON（close）angle

Standard ON angle is $15^{\circ}$ ，and other angles are also available．
＊Contact ON angle may move left or right caused by gap of switch installment or link of a shaft．Please consider timing between the auxiliary switch and the device．

## Close and break capacity

【Switching load under nomal condetions】

| Load <br> class | Make |  |  | Break |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | Cos $\phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | Cos $\phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ |
|  | 30 | 240 | 0.3 | 3 | 240 | 0.3 |
| DC－13 | 0.55 | 250 | 300 | 0.55 | 250 | 300 |

Switching：6，050 times

【Switching load under abonomal condetions】

| Load <br> class | Make |  |  | Break |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | Cos $\phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | $\operatorname{Cos} \phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ |
|  | 30 | 264 | 0.3 | 30 | 264 | 0.3 |
| DC－13 | 0.605 | 275 | 300 | 0.605 | 275 | 300 |

Switching：10 times
※AC－15，DC－13 follow IEC－60947－5－1 test condition．

## Electrical life

| Load <br> class | Make |  |  | Break |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | Cos $\phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ | Current <br> $(\mathrm{A})$ | Voltage <br> $(\mathrm{V})$ | Cos $\phi$ <br> $\mathrm{T}_{0.95}$ <br> $(\mathrm{~ms})$ |
|  | 30 | 240 | 0.7 | 3 | 240 | 0.3 |
| DC－13 | 0.55 | 250 | 300 | 0.55 | 250 | 300 |

| Angular speed： | $2 \pi \mathrm{rad} / \mathrm{s}$ |
| :--- | :--- |
| Switching： | 50,000 times（AC－15） |
|  | 20,000 times（DC－13） |
| Switching frequency： | 360 times $/ \mathrm{h}$ |

＊AC－15，DC－13 follow IEC－60947－5－1 test condition．

## Rated operating voltage, current

| 220 | 10 | 15 | 0.8 | 1.2 |

## REFERENCE

## Aim of Load Area (L/R=40ms, Life: 50,000 times operation)

Unit inside structure(Contact "ON" status)

## Caution

## Precautions for use

- Thoroughly check the operating conditions of the product with the specifications and outline drawing.
- Do not use the product in a condition exceeding the ratings, specifications and characteristic of the product. Failure to observe this instruction causes a fault of the product.
- To improve contact reliability, please use the product in a condition that does not exceed the ratings, even when the 2-pole or 3 -pole contacts are used as a single pole.
- Do not to apply excessive pulling stress to the connection cable.
- Do not apply force in any direction other than the specified operating direction.
- The product performance has been evaluated at angular velocity of $2 \pi \mathrm{rad} / \mathrm{s}$. If the condition of angular velocity is different, verify actual performance of the product before use.
- With the operating link structure, care should be taken not to apply moment to the shaft rotation axis in any direction other than the specified rotating direction. Do not use the shaft rotation axis of this product as a rotation axis for driving other link. Failure to observe these instructions causes damage to the shaft and rotation axis.

## Precautions for use, storage and transportation

- Avoid use and storage of the product in a place where the product may be exposed to ozone or corrosive gas. Otherwise, sulfide film or oxide film may deposit on the contact surface, causing unstable contact operation or contact failure.
- During storage and transportation of the product, avoid exposure to direct sunlight, and keep the product at normal temperature and normal humidity.
- If the ambient temperature rapidly changed in high-temperature/high-humidity environment, condensation may occur in the switch, which causes deterioration of insulation, break of coil, rusting, etc.
- Exercise caution about freezing when the ambient temperature becomes $0^{\circ} \mathrm{C}$ or lower. Freezing causes adhesion of moving parts and contact failure.
- This product is not waterproof, oil-proof and explosion-proof. Do not use this product in such an environment.
- Exercise caution about influence of external noise, surge, etc. on this product.

## Precautions for mounting, removal and wiring

- If the product falls, product performance may deteriorate. In this case, do not use this product. To use this product, be sure to check appearance, specifications and performance of the product.
- Do not remove screws other than the terminal screw. Failure to observe this instruction cause a fault of the product.
- Recommended tightening torque for the terminal screw is $1.2 \mathrm{~N} \cdot \mathrm{~m}$.
- Before shipment of the product, the terminal screw is temporarily tightened. Securely tighten the screw before use, even if it is not used.
- If a mounting bolt is provided at the rear of the switch, be sure to fasten the switch at the front and rear securely.
- Recommended tightening torque for the mounting bolt (M6) at the rear of the switch is $2.5 \mathrm{~N} \cdot \mathrm{~m}$.
- Missed-connection may result in unintended operation, abnormal heating and fire.
- When mounting or removing the product, make sure that the product is not alive.
- For wiring of the product, be sure to use applicable cable and crimp terminal, in consideration of applied voltage and current.
- For a product which mounting pitch is fixed, be sure to observe the specified dimensions.

## Precautions for inspection

- To clean the product, use vacuum, instead of air blow. Using air blow causes dust intrusion into the switch, resulting in contact failure.
- Do not disassemble the product during cleaning. Disassembling the product causes a fault of the product.
- If you find any damages to the product, replace it immediately.
