

INSTRUCTIONS

1. Attentions for use

- Please confirm contents mentioned in the specification and drawing before use.
- Please follow the rating and specifications not so as to damage the products.

2. Attentions for environment

- Please keep out of direct sunshine on the way of transportation or storage. Please store the products in normal condition.
- This product can be used in neither explosive nor oily atmospheres.
- Please be careful of a noise or surge voltage from the surroundings.
- Conductive grease and other reagents may cause crack of plastic materials. Amount of reagents should be controlled properly. Please avoid adhesion of reagents to non-intended materials.
- Long-term use may cause deterioration by use condition like temperature, humidity, dust, gas, vibration, shock, voltage, switch frequency. We recommend periodical inspection and maintenance and exchange at long-term deterioration.
- Do not use the products in ozone or corrosive gas atmosphere.
- Sudden temperature change may cause dew condensation. Performance of a product may deteriorate thereby.
- Low temperature below zero may freeze the movable parts and may disturb the conduction between contacts.
- Reagents shall be avoided from products. Strong acid, strong alkali, heavy-metal salt solution, halogen compound (causing terminal corrosion), aromatic hydrocarbon (causing solution and/or swelling of resin) and halogen hydrocarbon (causing solution and/or swelling of resin) shall be prevented from products particularly.

3. Attentions for installation or wiring

- No abnormality such as breaking wire shall be checked before using.
- The drop of a product may cause damages in itself.
- Wrong wiring may cause unexpected failure, abnormal heat or fire.
- Installation or uninstallation of the products shall be done with no power supply.
- Appropriate electric wire size and solderless terminal shall be connected to the products.
- Please connect wires not so as to pull the terminals.
- Please install apart plural products at prescribed distance.
- Please do not take off a screw except terminal screws.
- Please avoid the short-circuit on wiring.

4. Attentions for maintenance

- Please exchange the damaged products promptly.
- Please do not disassemble a product.
- Cleaning with thinner may cause crack on plastic parts.
- Air blow cleaning may cause the foreign materials to reach to the contacts. Air suction cleaning is preferable.

5. Warranty

- A warranty period of the products is one year after the delivery.
